

## Mystic Mountain Dock And Deck

**DOCK AND LAKE FRONT OBSERVATION DECK:** Follow the path/road down and stay on our side of the fence (Do not go under fences). You can also follow the “Lake” signs to the lake side observation deck near our water front property north/east of the house. There are 3 arms to Lake McGilvray. Access to all arms depends on water levels which vary greatly month to month, year to year as you can see by the water mark on the shore.

**DECK CHAIRS:** As the weather here in Montana can shift very quickly, be mindful to stack chairs and tilt them so they do not fill with water. Also, bungee them to the log railing so they do not blow away. There should be a rag and spray in the dock box to wipe them down as needed.

**DO NOT CROSS OVER OR GO UNDER AND OF THE FENCES BELOW THE HOUSE AS THIS IS PRIVATE PROPERTY. VIOLATIONS ARE SUBJECT TO LOOSE SECURITY DEPOSIT.**

**UMBRELLA:** The deck is shaded by mid afternoon. But during sunny hours, the umbrella can be used. Please lower it when you leave the deck so it does not get blown away.

**CANOE:** A three person canoe is down at the dock for your enjoyment. **Please tie it up well** to the dock and/or pull it out to dry land and flip over to prevent water damage in rain. If it looks like rain, kindly pull it up on the dock and flip it over to keep the water out. Respectfully wipe down the interior as needed for the next guests. There is a small storage/cooler in the middle of the canoe under the middle seat.

**WATER FLOATATIONS.** There are blow-ups in the lower garage you are welcome to use. Please do not leave them on the lake or dock when not in use. or they will blow away. Return them to the lower garage.

**CHILDREN’S LIFE VESTS** are stored in the deck box on the dock deck, Please do not leave them in the boats and be sure to return them to the box after your use.

**ORES** are in the canoe or under it if on dry land. Please be sure to return and secure
